river trips

1 day rafting trip

5

best things about the Tuolumne

- 18 miles of world-class whitewater
- Idyllic side creeks & swimming holes
- Remote wilderness canyon
- Close to Yosemite
- The legendary Clavey Falls

SPECIFICS

Length in days: 1

Length in miles: 18

Overall difficulty: IV

Highest difficulty (#): IV+ (1)

Rapids/day: ~20

Gradient: 38 feet/mile

Signature Rapids:

Nemesis, Clavey Falls, Gray's Grindstone

Types of boats:

Oar-paddle combination

Minimum recommended age:

14 before July 1, 10 after July 1

Rapids: ★★★★★+

Scenery: ★★★★★

Wilderness: ★★★★★+

Swimming: ★★★★★

5

best things about ARTA

- Friendly, fun & gracious guides
- Active, engaging & informal style
- Steadfast commitment to safety
- Over 50 years of experience on the west's most iconic rivers
- We donate our profits back to protecting the environment

California's best river trip

There's a lot of whitewater on the Tuolumne, a whole lot. In the 18 miles from Meral's Pool to Ward's Ferry we will run over 14 major rapids rated Class IV or better, and several others rated Class III and III+. In all, there are over 40 named rapids and probably another 40 that would have names if they were anywhere else. In the early part of the season the rapids are big and fast and cold; we wear wetsuits and paddle furiously. Later in the summer, the rapids are tricky and frequent and the water is a bit warmer (and the air is hot); we wear sunscreen and laugh a lot.

Our one day trips focus on having fun on the river. We'll run a lot of rapids, swim a bit, maybe jump off a rock, surf some waves, and take a short break for lunch. Come prepared for a long, full day on the river!

The river is born high in the Sierra Nevada mountains in Yosemite National Park and flows through some of the most spectacular scenery in California. In 1984, the river was protected under the National Wild and Scenic Rivers Act, preserving the unique and beautiful area for future generations to enjoy. For many years, the word "Tuolumne" has been synonymous with outstanding whitewater, and the river has justly deserved this association. Recently, however, the outstanding fishing, the exquisite scenery, the beautiful side creeks, the solitude, and the peacefulness of the canyon have all become recognized as the Tuolumne's equally important assets.

*"We couldn't have asked for better guides.
Don't change a thing!"*
Tom Alles

The Tuolumne~logistics

1 day rafting trip

Meeting Place

The ARTA Office at La Casa Loma
24000 Casa Loma Road, Groveland, CA

Meeting Time

8:30 am on the morning of your trip.

Return Time

Between 5:00 and 6:00 pm.

Pre-trip checklist

- **Complete on-line registration**
(follow the directions and link that came with your original reservation)
- **Plan for the unexpected**
(purchase Travel Insurance through [USI Travel Insurance](#)).
- **Gather and pack your gear**
(there is a complete list on the Equipment page; call if you have any questions).

What we provide

- Transportation from La Casa Loma to the river and back
- Friendly, professional guide service
- Fresh and hearty picnic lunch and snacks
- All taxes and government access fees
- Lifejackets, helmets and other specialized river touring equipment for the trip

What you are responsible for

- Transportation to La Casa Loma
- Meals and lodging before and after your trip
- Guide gratuities – If you truly enjoyed your trip, tipping is a great way to show your appreciation. Tipping is optional and personal, but since a lot of people ask, a customary amount is between 10 and 15 percent of the trip cost. Tips can be given to the Lead Guide who will share them equally with the entire crew; (and the entire crew will appreciate them greatly – thank you.)

Where and when to meet

We'll meet you at **8:30 am on the morning of the trip starting date** at La Casa Loma which is 7½ miles east of Groveland on Highway 120. If you will be late, please call 209/962-7873. ARTA will provide transportation to the river and back; arrival time back at La Casa Loma should be between 5:00 and 6:00 pm.

How to get there

La Casa Loma is located at 24000 Casa Loma Road which is on the north side of Highway 120 at the eastern end of Ferretti Road, approximately 7½ miles east of Groveland. [There is also a Ferretti Road turnoff in the town of Groveland - do not turn here - this is the western end of Ferretti Road.] Driving-time from the San Francisco Bay Area is approximately 3½ hours (through Livermore, Tracy, Manteca, and Oakdale); from Los Angeles approximately 7½ hours (through Merced, Snelling, La Grange, Coulterville, and Greeley Hill - you will bypass Groveland and join Highway 120, 1 mile west of La Casa Loma.) There is no cell phone or gps service at La Casa Loma, so download the directions or bring a good map. There is also no public transportation available to Groveland. San Francisco, Oakland, Sacramento and San Jose airports are all roughly 3 hours away.

Where to stay

The elegant Groveland Hotel, (209/962-4000) and the cute Hotel Charlotte (209/962-6455) are both in "downtown" Groveland, (near the historic Iron Door Saloon). Evergreen Lodge, (800/935-6343), a unique collection of cabins on Yosemite's doorstep, is 30 minutes east and is a great option for extending your stay in the area before or after your trip. Red Tail Ranch (209/962-0863), a tiny Bed and Breakfast on 50 acres just up the road from us, is a relaxing place to stay if you have time before or after your trip and want to unwind. Another unique option is Sugar Pine Ranch, an old homestead with cabins halfway between Groveland and La Casa Loma (209-962-7823). Additional accommodations are available in Yosemite National Park, one hour away. Rustic camping is available at the Forest Service campground "The Pines" 1 mile east of La Casa Loma; reserved camping is available 10 minutes away at Yosemite Pines RV Park (209/962-7690) and one hour away in Yosemite National Park (209/372-0200).

Local Attractions

Welcome to Groveland! This is our hometown and we are very proud of it. Things here are rustic, remote and beautiful and even though Groveland is a tourist town (in the summer), we don't have the facilities of Lake Tahoe or Napa Wine Country. Things here are pretty simple; one grocery store, four or five restaurants, half a dozen places to spend the night and spotty cell phone service. Here are the don't miss attractions:

Yosemite National Park. A no-brainer. Taking a Tuolumne trip and not visiting Yosemite would be like going to Hawaii and not swimming in the ocean. The popular Valley attractions are the Mist Trail (anytime, but particularly in the spring), Yosemite Falls and strolling along the Merced River. A quick drive out to Glacier Point is stunning. A visit to Tuolumne Meadows will give you a new perspective on the Park (meadows vs. cliffs).

Stanislaus National Forest. Almost everything around Groveland that isn't National Park is National Forest. There are numerous campgrounds, lots of dirt backroads, and a few swimming holes. Just a few miles east of La Casa Loma on Highway 120 is Rainbow Pool, a cool waterfall and swimming hole.

Cocina Michoacana. THE place to eat in Groveland. Small, rinky-dink, and deceiving, but authentic, friendly, and tasty. If you're unsure of what to get, just say "Number 20. Chicken. Flour." and you'll be happy. Trust us.

The Iron Door Saloon. Groveland's most famous landmark ("the oldest saloon in California"). Full of history, mystery and locals. Live music and dancing on most weekends in the summer. We recommend this for AFTER your trip, if you know what we mean.

The Tuolumne~ details & gear

1 day rafting trip

About the boats

Because of the difficulty of the Tuolumne, we use self-bailing oar-paddle combination rafts on our 1 day trips.

Oar-paddle combination rafts are 14 to 16 feet long and are steered by a guide using two oars and assisted by a team of 2 to 6 paddlers riding in the front and actively paddling through the rapids.

Weather

During the summer, the temperatures in the Tuolumne Canyon often reach into the 90s. Most people are comfortable in shorts and a lightweight shirt, but a synthetic fleece top is advisable if you get cold easily. Springtime temperatures can range from the 60's to the 80's, and rain is more likely. If your trip is before June 15, come prepared for cool temperatures and cold water.

About the water levels

The Tuolumne is a dam-controlled river, but because it has a large watershed and small reservoirs, it behaves like a wild river in the spring. High water conditions last for one to seven weeks and peak around the first of June. During the high water period, the river has many solid Class IV+ and Class V rapids and everyone should be in good physical condition and ready for a challenging day on the river. All one-day trips are long and arduous and include two formidable shuttles, an intricate warm-up session, 18 miles of challenging river, at least one extended scout, and only a short stop for lunch. All guests should anticipate and be ready for a full day. As the season progresses we conduct 2 and 3 day trips which are less rushed and allow more time to enjoy the beauty and solitude of the canyon.

WHAT TO WEAR ON THE TUOLUMNE IN THE SUMMER

During the summer, it is usually warm and sunny on the Tuolumne so you won't need much. You will be getting wet and the water is cold (60 degrees) so things that dry quickly work best. Proper footwear is critical and a water bottle is handy. We will have a small, communal drybag available for odds and ends. Here is what you should wear:

- Sandals with heel strap (Chaco, Teva, Keen, etc.) or old running shoes. **NO FLIP FLOPS OR SLIP-ONS!**
Add wool or fleece socks if your feet get cold easily.
- Swimsuit or shorts. Synthetic, quick-drying shorts are best. Women often prefer to wear shorts over their swimsuit.
- T-shirt or lightweight cotton or dry-tech style synthetic shirt. Long-sleeved if you want extra sun protection.
If you get cold easily, a lightweight fleece top is handy (we'll pack it in the communal dry bag).
- Brimmed hat for under helmet (baseball-style or visors work best)
- Sunglasses with strap, (maybe not your best pair)
- Small water bottle, 1 quart, (essential - even if it's just an empty plastic Gatorade bottle)
- Waterproof sunscreen/block (SPF 30+)
- Waterproof camera, (if you want to bring your cell phone to use as a camera, we strongly recommend getting a sturdy case such as an Otter Box or EscapeCapsule)

WHAT TO ALSO BRING IN THE SPRING AND FALL (or if you get cold easily)

During the spring high water period, (as late as July 1st), the Tuolumne is quite cold and we will provide you with a 3mm "farmer-john" style wetsuit (sleeveless) and a waterproof splash jacket (non-insulated). You are welcome to bring your own if you prefer.

In addition to the items listed above, you should bring:

- **Required:** Polypropylene pile or synthetic fleece pullover or jacket ("polartec", "polarfleece", etc. NOT COTTON)
- Second pair of shorts for over wetsuit.
- Fleece cap, gloves, and socks, wetsuit booties (optional).

WE WILL PROVIDE: a wetsuit and splash jacket for each guest.

Professional Tip

Proper footwear will make your day much more enjoyable. You should wear shoes or sandals that won't come off if you go swimming. Old running shoes are fine; outdoor sandals with a heel strap (Chacos, Texas, Keens, etc) also work well; wearing wool, fleece or neoprene socks (not cotton) under them will help keep your feet warm. Wetsuit booties keep your feet the warmest, but can get a bit clammy after a full day on the river. Aqua shoes are great for the water park, not so good for walking on rocks.
